ORIENTATION CHAIR Stephanie Whitehurst *Indy OT7*

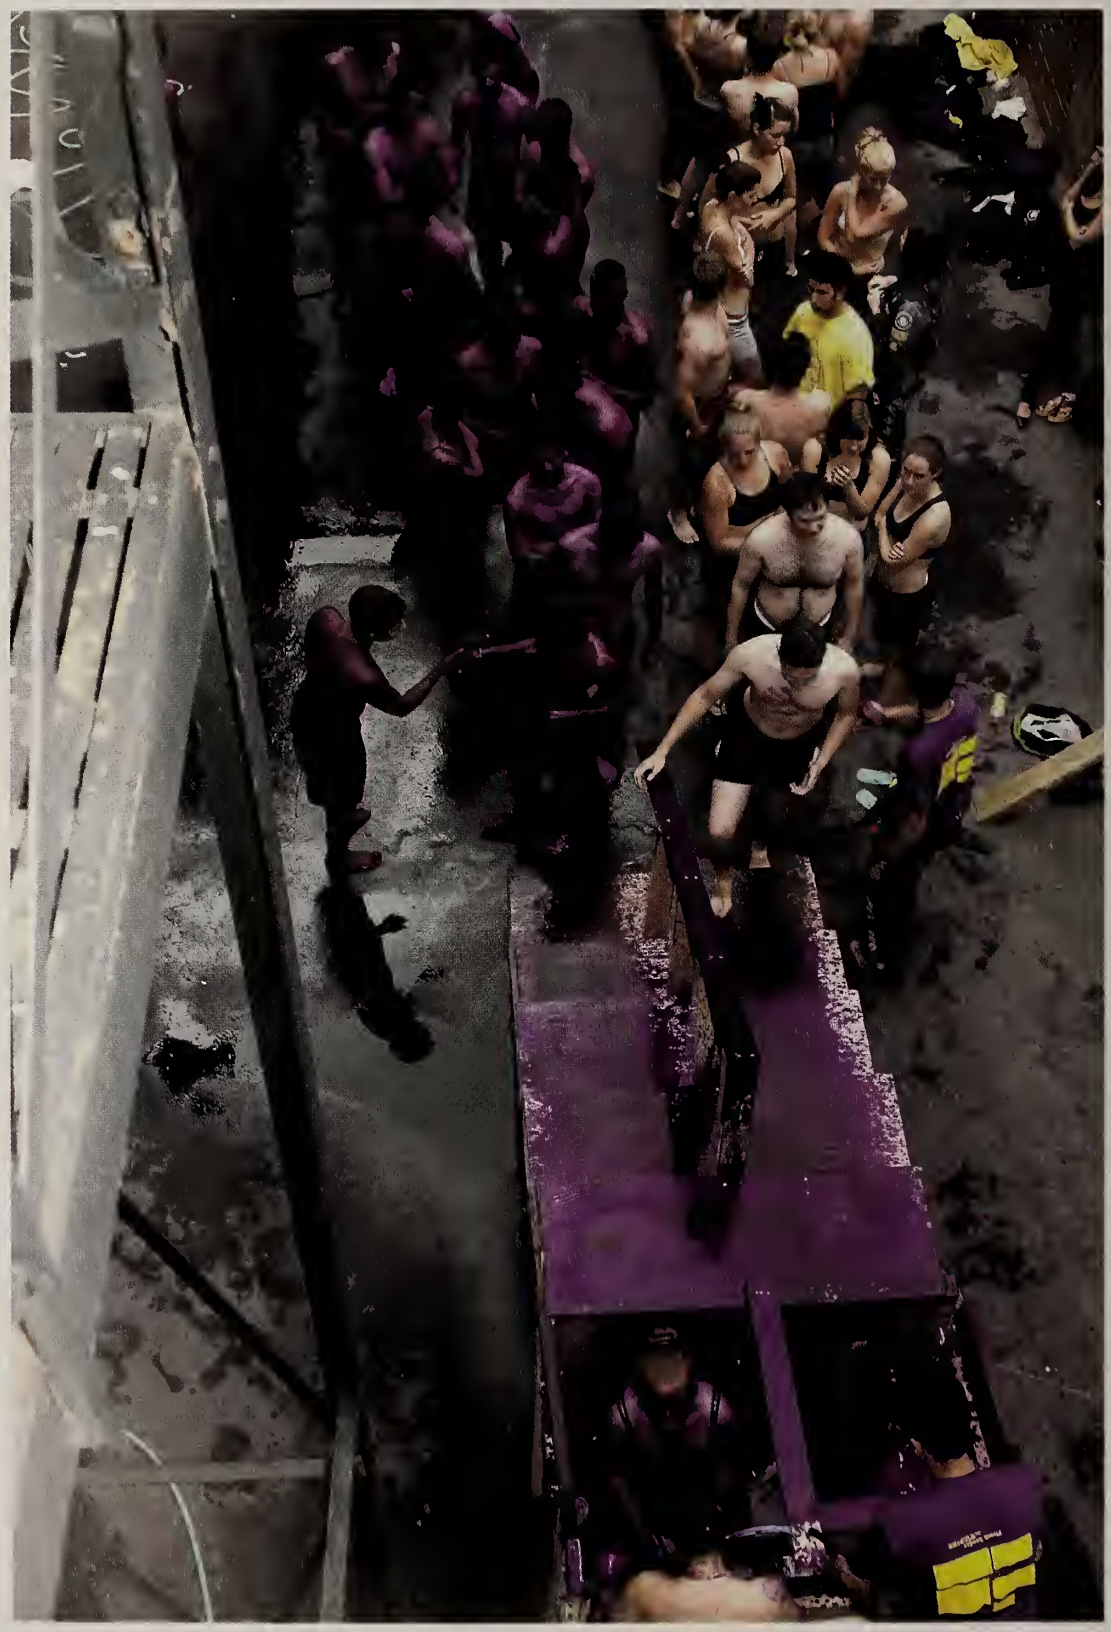
ORIENTATION CHAIR'S MESSAGE

Running orientation helped to solidify everything that makes me proud to be part of the engineering community at the University of Toronto. The saying goes that Engineers work hard and play hard and nowhere is this more evident than in the preparation and execution of F!rosh week. There is no way that the week would have been a success without the hard work and help from so many individuals. I owe many thanks to the people who stayed up late into the night helping with the mail out, stuffing frosh kits, ordering merchandise, placing orders, fundraising, cooking food, training Skule patrol, booking venues, building craziness and planning out every event. Frosh week is the culmination of so many individuals' hard work and I am proud to have had the opportunity to work with them all.

Frosh week is also about testing limits. Nothing says F!rosh week like 24hrs without sleep, a week full of partying, purple people, giant metal lightning rods in center campus, concrete hardhats that cause the destruction of lawn mower blades, power tools in the rain, BEvERages and 2000 people blocking major intersections in Toronto. To the frosh of 1T0 I hope that the week was everything you had hoped and to those upper years who participated I hope you choose to get involved again next year.

A special thanks to Kimberly Rose, Brandon McLean, Blue & Gold and Michael Kranz for their hard work both for orientation and in keeping me sane.

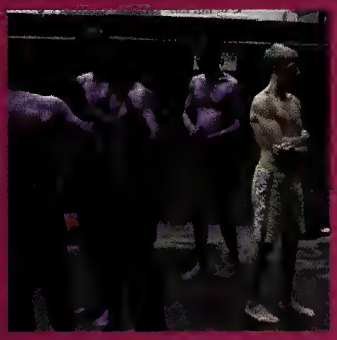
NO ONE DIED == ONE HAPPY ORIENTATION CHAIR



A DIVISION OF COLOUR Flrosh leaders form two distinct lines: half waiting for dye, half waiting to dry

LEADERDYEING

MECH-MIN ALLEYWAY *9.4.2006*



PURPLE PREPARATION
In order to put their best purple foot forward for F!rosh week, F!rosh Leaders dye themselves a day in advance to prepare for Orientation Week festivities. What better way to show first years our Skule™ spirit than by painting ourselves a brilliant shade of purple?

F!ROSH WEEK BEGINS

CONVOCATION HALL *9.5.2006*

FIRST DAY AT SKULE™

F!rosh gather around Convocation Hall and Front Campus as they soak in the excitement of the first day of Skule™. F!rosh leaders clad in coveralls and brightly decorated hardhats lead F!rosh in rousing choruses of Skule™ chants and Godiva's Hymn. Battlelines are immediately drawn as Greek lettered F!rosh Groups vie for Orientation Week supremacy.

F!MATRICULATION

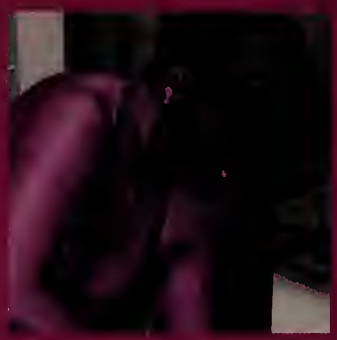
CONVOCATION HALL *9.5.2006*

A SOLEMN OATH
F!rosh place the sacred yellow hardhat over their hearts as they repeat the Engineering oath [*left*]

A ROWDY ENGINEERING WELCOME
The class of 1T0 fill Convocation Hall to receive an official welcome to U of T and to the Faculty of Applied Science and Engineering. F!rosh get an overview of what to expect for the next four years, what clubs and activities are available, what events to keep an eye out for. Other Con Hall entertainment include the traditional pranking of the SAC President, a SkuleNite skit, and the year's first firing of Ye Olde Mighty Skule™ Cannon.

F!ROSH DYEING

MECH-MIN ALLEYWAY *9.5.2006*



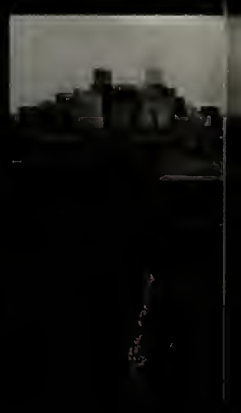
THE COLOUR OF ROYALTY

The curious practice of dyeing our bodies purple dates back to when the British Royal Navy had more power than the American army. Her Majesty's ships were being sent out to explore, conquer and claim exotic lands at the far ends of the Earth. Like a tireless colony of ants, the Royal Engineering Corps worked from dawn till dusk to keep Her Majesty's ships in good condition. To identify themselves as Engineers, each officer proudly bore a bright purple patch on his right arm, just below the shoulder.

The sweat, grime, and bilge water in the Engineers' work environment caused the bright purple dye from the badge to transfer to the skin, leaving a distinctive mark. To this day, we proudly dye our skin purple as a tribute to the brave Engineers who served Her Majesty in days past.

F!ROSH PICTURE

FRONT CAMPUS *9.5.2006*



A MESSAGE FROM ABOVE The F!rosh Picture develops and a message begins to materalize

A BIG STATEMENT
Every year during Orientation Week, F!rosh line up to pose on Front Campus for the F!rosh Picture. Traditionally, the message spelled out by hundreds of F!rosh involves a play on words with their graduation year. This year's 1T0 Pacman theme was designed by Alp Kucukelbir.

FIROSH PICTURE

FIROSH PICTURE

When you're a several-hundred strong throng of rambunctious purple people, you can pretty much have your way with the city. Visiting popular tourist areas like the Eaton Centre and Queen St., Frosh cut a bright yellow swath across the heart of Toronto.

MIRRORED Frosh are reflected in a office building during the downtown tour [*above*]

STOPPING TRAFFIC Engineers take over Yonge St. [*left*]

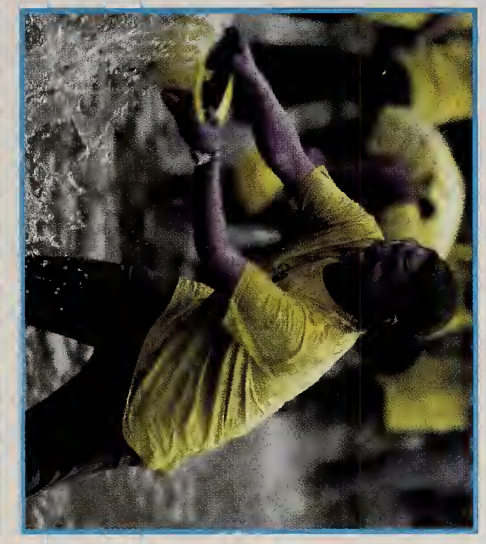
DOWNTOWNTOUR

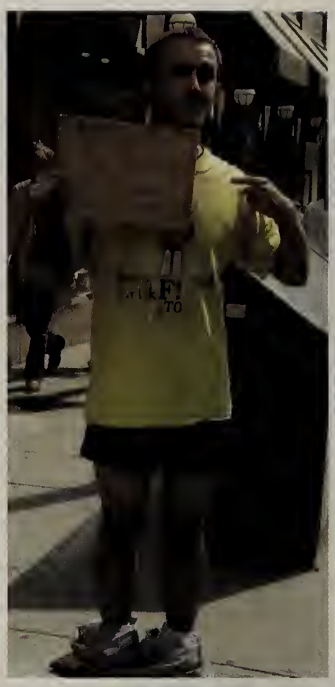
THE HEART OF TORONTO *9.5.2006*

WATERFIGHT

NATHAN PHILLIPS SQUARE *9.5.2006*

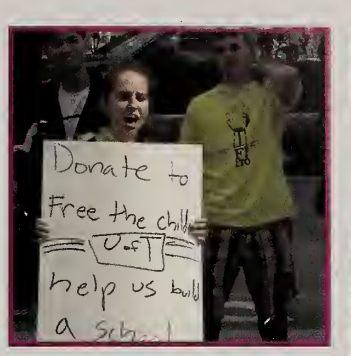
NO WADING
At least, that's what the sign says by the Nathan Phillips Square reflecting pool. Once a year, this Toronto landmark is transformed into a torrential free-for-all when an army of yellow and purple hooligans descend upon it to start the annual Frosh Waterfight.





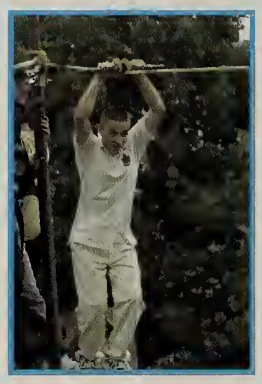
CHARITYBUSKERFEST

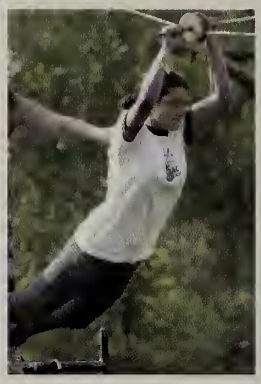
FREE THE CHILDREN BUSKERFEST *9.6.2006*



FREE THE CHILDREN

As Skule™ Engineers, we pride ourselves on our ability to show the true face of Engineering: integrity, creativity, competitiveness and a strong sense of community. Our annual Charity Buskerfest allows us to give back to those around us in a fun and exciting way. For 2 hours, F!rosh blanket the downtown area and busk in ever way imaginable for charity: singing, dancing, being taped to telephone poles, stripping.. you name it, we do it! Proceeds from this year's Buskerfest were donated to the Free The Children organization. F!rosh group Alpha raised the most money (an astounding $1200!).

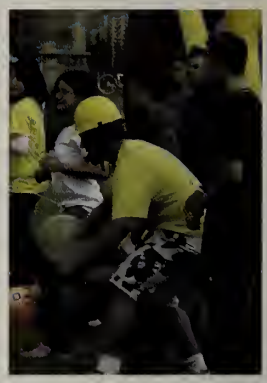


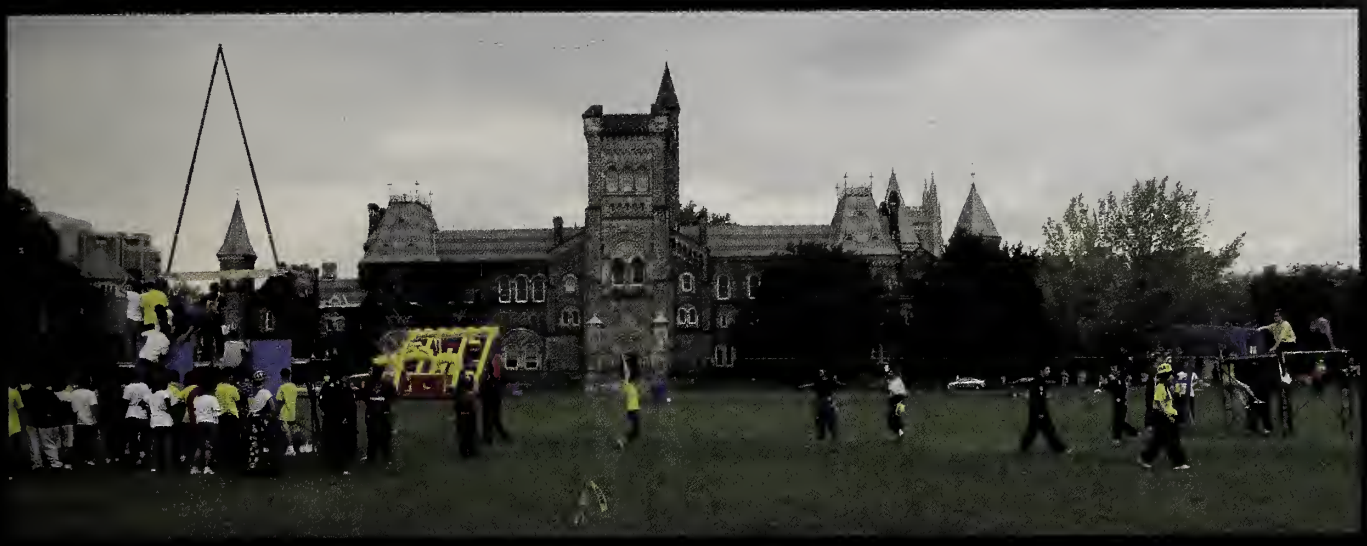


HEART PUMPING FUN
What better way to meet your future classmates than by racing around front campus on ziplines and monkeybars? The F!rosh Olympics are guaranteed to bring out your competitive side and get your pulse racing as you battle it out with your peers.

F! OLYMPICS

FRONT CAMPUS *9.6.2006*





ZIPLINE JUNGLE OT1 Firosh make their way through an elaborate jungle of obstacles

Entire team in a phone booth (or minimum 4 members) [20] Entire team in a bus stop [10] Entire team in a port-o-potty (or minimum 4 members) [40]

Licking a mannequin's ass [100] If two other members are licking it's nipples at the same time as the ass [+ 50/nipple]

Everyone fitting into a different piece of luggage [200] If one of the group members can fit into a piece of carry-on luggage [+75]

Play a poker game with a statue [100] If strip poker [+750]

F!OTOHUNT

Group spelling something with their bodies in the 5F atrium [50] If it's "JELLO" and they're all jiggling [+300]

Male group member trying on bras in a lingerie shop [400]

Make a pyramid in the following locations [5 points/person in pyramid]

At least 3 members raid Tim Horton's, go behind the counter and take a donut each. [150]

2 members cuddling in a bed in a dept store [250] The members are dyed purple and wearing hardhats [+50] They get a customer (non-member) to join the "threesome" [+250]

Group member's picture on a milk carton [+500]

Group member knee-deep in Nathan Phillip's square [75]

Group member in the trunk of a car [20 points/group member]

A baby less than one month old [50]

Group member streaking [75]

In a Baskin Robbin's [10]

container emptied onto group member's head [250] If member of opposing team (must get their written consent first, and present it to judges with photo) [+100] If a [illegible] [+200] If the dean [+500] Xmas store display [50] Truck carrying livestock [50] Zamboni [50] If you get to drive it [+100] If presented to judges [+1000] Exp[illegible] coupon [20] Bullwhip [50] If group member is changing a baby [+50] [illegible] group member is being changed by a baby [+500] Lobster trap [75] Solar panel [75] U of T solar car [75] SAE car [75] Harp [50] Pendulum [score varies b[illegible] Jukebox [50] If a group member is dressed up like "The Fonz" [+75] Picture of frosh with a Wal-Mart "greeter." [75] Picture of group member donating blood [50 [illegible] on blocks (minus wheels) [150] A male and female from the group looking exactly the same from the back [25] If from the front [+75] Frosh in full sport uniforms [illegible] Frosh group lifting car [500] If it's a cab [+50] If cabby's IN cab [+50] If cabbie helps out [+100] At the scene of car accident [75] Frosh member getting piercing [illegible] head shaved (need at least one other member in picture) [250] If frosh is purple [50] Frosh with largest bees nest (largest wins) (need some way of me[illegible] picture, i.e. ruler) [100] Frosh with the larges bees knees [100] Frosh hanging Skule banner on major road/overpass/campus building [250] Frosh with TTC [illegible] front car with driver [150] Funniest picture (pts for 1st [500],2nd [300],3rd [250] places) [illegible] air (i.e. could be launched, bridge jumping, etc) [50] Oldest flyer on campus [20] Frosh carrying another frosh, dressed as a horse [150] Frosh drunk in [illegible] drink poured out by mice [200] A picture of frosh with child on leash [200] Vertical stack of frosh [50/person] Frosh herding flock of [illegible]

BLUE&GOLD BED RACES

KING'S COLLEGE ROAD *9.7.2006*

MAKESHIFT RACEWAY
The cobblestones of King's College Road pave the way for the intense Blue & Gold Bed Races. Skule™ Engineers build beds with wheels (mattress optional!) and go head-to-head against other colleges to prove that Engineers truly *are* the best. If you happen to be light and have a good grip, you might be recruited to ride a bed. Bring a helmet.

HUNTING FOR POINTS

The Scavenger Hunt is an Engineering tradition, a city-wide search for a wacky list of items. Bring back any item from the list and earn points from the Scavenger Hunt judging panel. Mini competitions for points are held throughout the night. The team with the most points at the end of the evening wins a great prize and bragging rights.

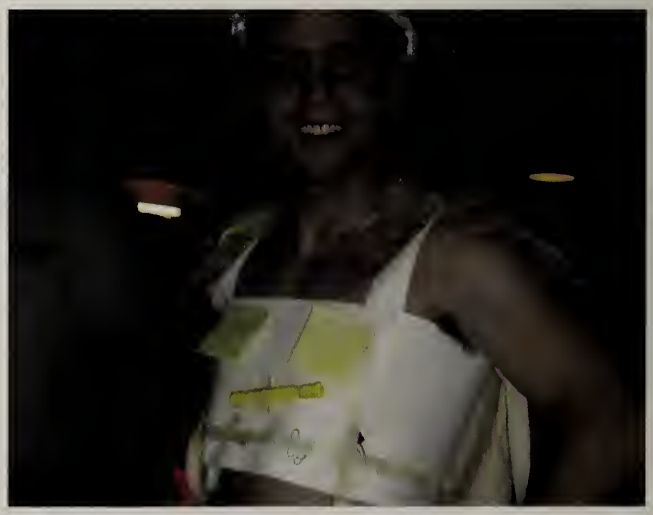
SCAVENGERHUNT

ALL OVER TORONTO *9.6.2006*

ARCHIVIST, MICHAEL HAWKINS dressed in his TTC outfit [5 pts] picking up garbage with his mouth [+ 15 pts]

ENGINEERING SOCIETY OFFICERS [5 pts] serenading the judges with a love song [+ 10 pts + possible bonus for song quality]

PAPER TOGA and wear it [10 pts]



DRESSED IN ONLY OFFICE SUPPLIES [15 pts + possible bonus for outfit quality]

SCAVENGER HUNT TEAM SCORES:

The Knights Who Say Ni	1491
Zee Shwveaty Ballsaks	259

WILLCOCKS ST. sign for the Toike Editor [50 pts]

FIT 15+ PENCILS in your hair [5 pts]

ENGCOM CHAIR Steven Szeto duct taped to the Engcom door (must be completely immobile) [25 pts]

NEW COLLEGE sign [50 pts each]

I BANGED NATHAN'S SISTER T-shirt [50 pts]

HARTHOUSEFARM

HHF 9.9.2006

WATER, WATER, EVERYWHERE Waterpolo, frisbee, diving and good old splashing

BACK TO NATURE Engineers gather around to enjoy a bit of nature before the semester begins

ENGINEERS' FARM

After a long week of excitement and festivities, Engineers take a break from the busy city and return to nature at Hart House farm. Sit around, relax and meet some new friends before classes get into full swing. Ponds, a Tarzan swing, a sauna, caves to explore and a toasty firepit are only some of HHF's attractions. Crazy Engineering stories and traditions are swapped over a BBQ dinner and marshmallows around the firepit.

BLUE&GOLDCOMMITTEE

HENRY CHEUNG JOHN MCLEOD *2006-2007 Chairs*

BLUE & GOLD EVENTS
Bed Races during Frosh Week [*top*]
Space Shuttle Homecoming Float [*bottom*]

~#*0/0*$!

Greetings to all Blue & Gold Party Animals, Fanatics, Boys & Girls, Scalliwags & Swashbuckers, Ladies & Gentlemen, War Machines, and ***Coinnoisseurs of Awesome*** Alike!

Some of you may be confused by the apparently random collection of pictograph memories and poorly-written text found on these pages... Now, before you decide to ignore us and turn the page to continue looking for pictures of yourself, READ ON (you know you want to!) and witness the retelling of the story of this past year's Blue & Gold Committee:

The Blue & Gold Committee is dedicated to planning unconventional social events to help students throw off the shackles of school, and throw on the shackles of **Skule**.

This year, the Blue & Gold Committee was all about raising the bar, upping the ante, and turning the dial WAY up with **no comeuppance** (:). Along with getting through the year alive, some of the things the Blue & Gold Committee accomplished throughout the year included: designing and building a kick-ass, almost-race-winning, steerable bed, as well as an elaborate obstacle course with two (2) mostly-safe ziplines for Frosh Week, **partying it up** with Skule Rugby at Queen's University, building a massive, awe-inspiring, prize-winning space shuttle Homecoming Parade float **partying down** in Waterloo for Oktoberfest, running an awesomegasmictacular Godiva Week, jamming with monster trucks, ***partying in pretty much every imaginable direction*** in Fergus with McMaster, and hosting 2.521 metric shitloads of Blue & Gold Movie Nights. We, as Chairs, also managed to serenade everbody with our beautiful cracking and hoarse voices whenever the opporunity presented itself.

As with any well-oiled contraption, the Blue & Gold War Machine's successes cannot be, by any measure, attributed to any one or two bells, cogs, gears or whistles, but rather, it is the result of the work of all of its parts combined. To everybody who did so much as lift a finger this year to make Blue & Gold what it has been over the past year, we are so very grateful to have had you as part of our Committee. **Thank You** - without your unwavering Skule Spirit, passiong, and willingness to contribute, the Blue & Gold Committee could not have realized every child's greatest dream of building his or her very own spaceship, brought in the new year with such a phenomenally successful Godiva Week, partied like it was 1999, or invaded Denmark.

That being said, Henry Cheung would like to take some time to specially thank John McLeod for being so hot right now - and consistently all year long. Moreoever, John McLeod would like to specifically thank Henry Cheung for being his - and everyone's - dreamboat. Neither could have come through, while maintaining such style, panache, and **handsome good looks**, without the support (both emotional and structural) of the other.

We can only hope that the future holds naught but great things for the Blue & Gold Committee, and that hoards of people will continue to sign up on a daily basis (by going to *http://blueandgold.skule.ca* - tell your friends!). We trust that, with Blue & Gold at the helm, Skule will continue to dominate the U of T Homecoming Parade, Godiva Week will be truly orgasmic, bus trips will be mysterious, and the conquest of Denmark will continue unabated.

We've had one hell of an awesome ride.
Thank you.

Rock, Rock On!

Henry Cheung & John McLeod

BLASTING OFF The Skule™ Shuttle flies around the St. George Campus and putting all other floats to shame

A HISTORY OF EXCELLENCE
Every year, led by the Blue & Gold chairs, Skule™ Engineers come up with and build an elaborate float for the annual Homecoming Parade. Without fail, Skule™ routinely demolishes the competition and brings home the prize for Best Overall Entry. The 2006 Parade was no exception, with co-Blue & Gold chairs Henry Cheung and John McLeod heading up an impressive space shuttle themed float that nabbed the big prize once again.

R | Skule™ wins the prize for Best Overall Entry in the Homecoming Parade

HOMECOMINGPARADE

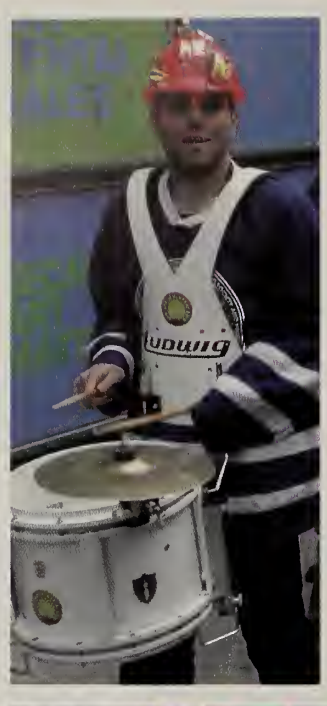
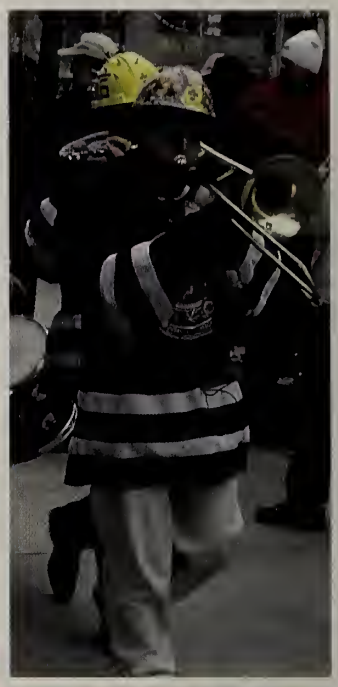
HALLOWEEN



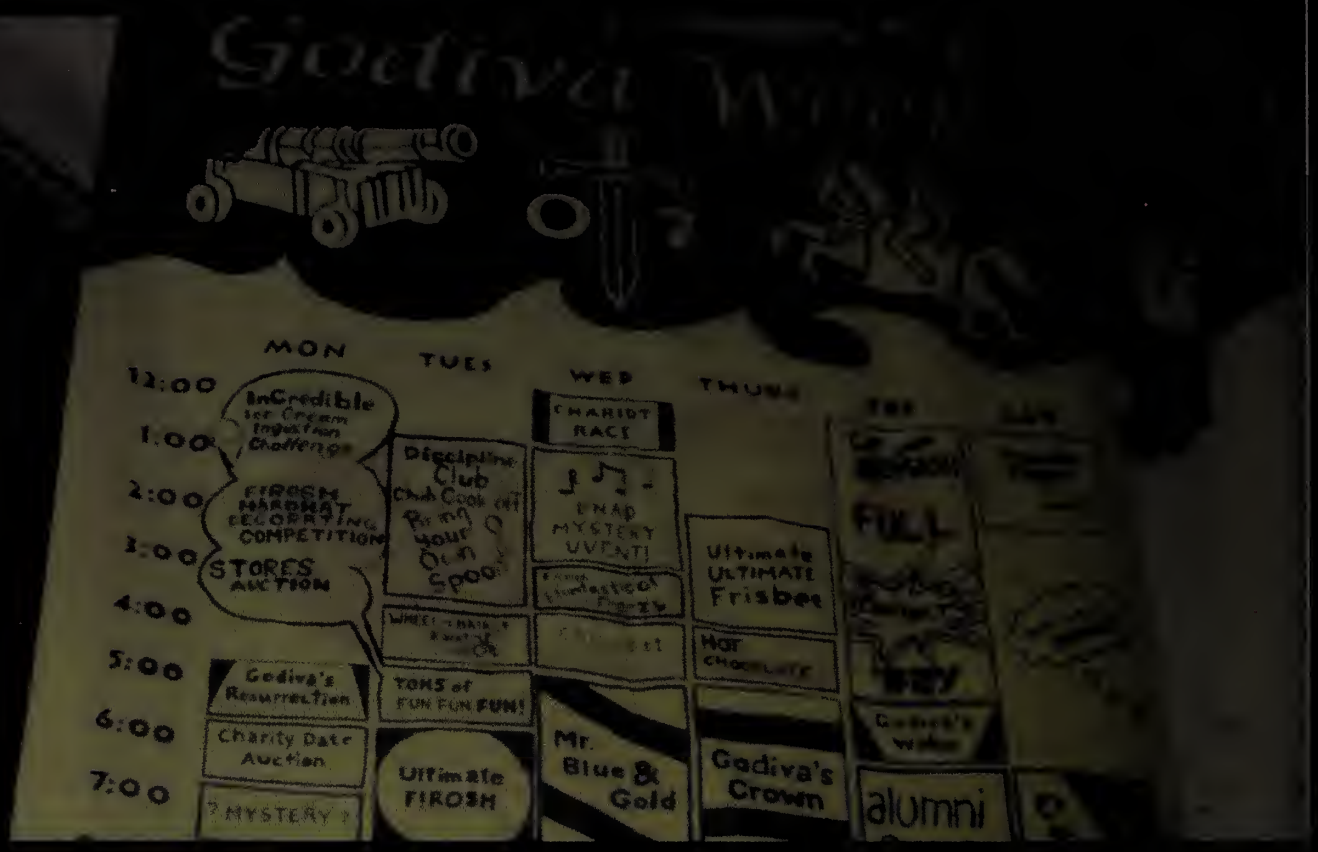


SANTACLAUSEPARADE

DOWNTOWN TORONTO *11.19.2006*

SEASONAL CACOPHONY The Lady Godiva Memorial Band marches along University Ave. during the Santa Clause Parade

A BNAD HOLIDAY CELEBRATION
Every winter, the Lady Godiva Memorial Band gathers its troups and joins the annual Santa Clause parade as it winds its way through the heart of Toronto. With drums banging, trombones blaring and a whole of noise being generated, the LGMB proudly traipses through the city to spread holiday cheer.



LADY GODIVA RIDES INTO TOWN A jam-packed Godiva Week full of fun and festivities

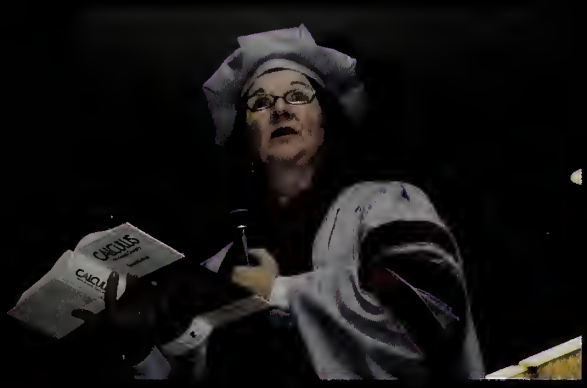
GODIVA WEEK 2007

† **GODIVA WEEK 2007** *[1.8.2007 , 1.13.2006]* AS THE SECOND SEMESTER BEGINS, SKULE™ ENGINEERS PARTICIPATE IN A WEEKLONG CELEBRATION OF THE SPIRIT OF LADY GODIVA. FIVE DAYS CHOCK FULL OF TRADITION, EXCITEMENT AND CRAZY FUN ALL IN THE NAME OF THE FIRST LADY OF ENGINEERING. HERE'S HOW WE HONOURED HER MEMORY.

GODIVA'S RESURRECTION

SF ATRIUM 1.8.2007

SACRED READING Dean Cristina Amon reads from the sacred book of Calculost during Godiva's Resurrection

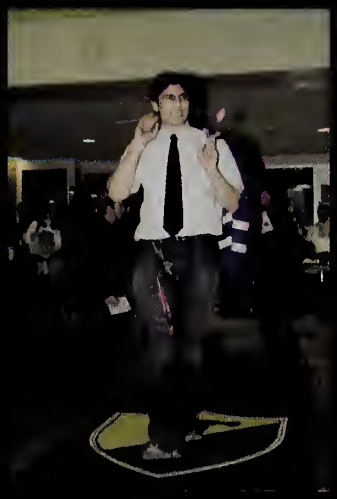


[*clockwise from top left*] BFC brings in Godiva's coffin; Mario Baker retrives the sacred book of Calculost; Skule Engineers kneel in silent honour for the resurrection of Lady Godiva's spirit; Dean Cristina reads from Calculost

CHARITY DATE AUCTION

SF ATRIUM 1.8.2007

MEN FOR SALE:

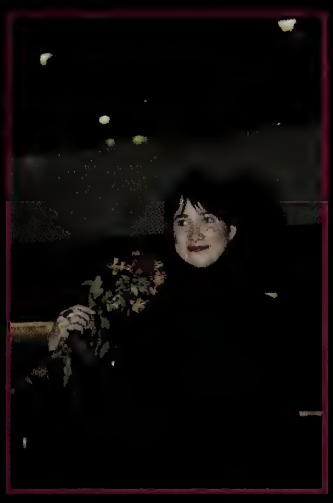


DATES FOR CHARITY

The annual Godiva Week Date Auction is the one time that money really *can* buy you love and happiness... and all in the name of charity! A generous group of gentlemen and ladies donate their time as they sashay down the catwalk to be auctioned off to the highest bidder. Each auction lot features a Skule™ engineer, a lovely pink flower, and a pre-planned date; all winning bids are donated to charity in the name of Lady Godiva.

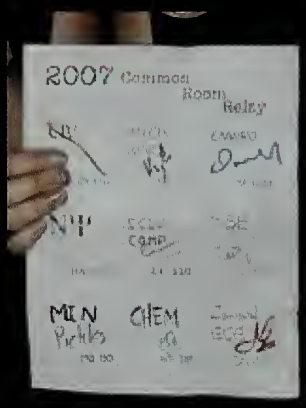
Get your bills and credit cards out, because these sexy Engineers don't go for cheap! All proceeds go to United Way.

WOMEN



MYSTERYEVENT...

ENGINEERING COMMON ROOMS *1.8.2007*

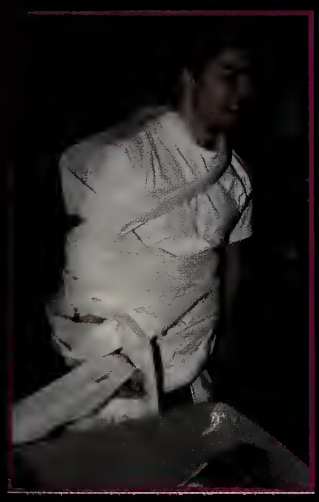


MY

This event is wrapped - or 'shrouded' - in Mystery. Note that, by law, Blue&Gold are only permitted to publicly advertise events that are under 15.7 MegaGiggles of fun - but now we've said too much already...

..COMMONROOMRELAY

COMMON ROOM FRENZY
In fine tradition (and wrapped in toilet paper!), Engineers race around the campus to each of the nine different discipline common rooms in a highly competitive relay. Markers and drinks are involved...



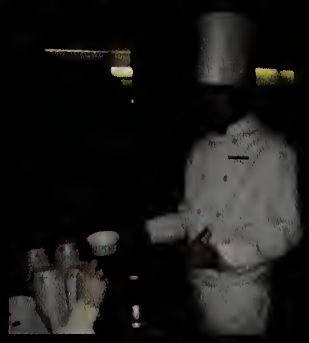
CHILICOOKOFF

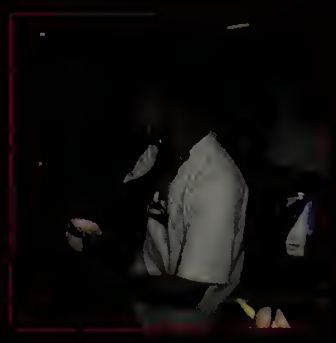
SPATIUM 1.9.2007

An open competition to every budding chef and sous-chef out there - this event pits every Discipline's beans, beef and secret combination of spices against each other in a winner-take-all Chili Cookoff adventure!

To the winner(s) go(es) a fabulous prize - and extra credit to their Discipline toward the Ye Grande Olde Chariot Race on Wednesday.

Bring your own Wooden Chili-Tastin' Spoon to partake in the tasting - if you dare!





WHEELCHAIRIOTRACE

1.9.2007

In true Engineering Spirit, this race tests our ability to creatively overcome the significant obstacles that face students with diabilities on campus. How easy is it to wheel yourself through every Engineering building? The only way to find out is through some sort of full-throttle death-race, now available in teams of five!

HARDHAT COMPETITION

SF ATRIUM *1.9.2007*

DESIGN EXTRAVAGANZA

Everybody knows that F!rosh can't win! - one exception to this rule is this competition, showcasing the ingenious hardhat designs of our beloved F!rosh. Three of last year's F!rosh hardhat decorating champions judge this competition, choosing winners based on the awesomeness, practicality, aesthetics and quality of their newly-decorated hardhats.

The judges are unwavering in their unbiasedness and fairness, but will also accept unconventional, er, "taste-imony", and will consider various "liquid assests" in their decision making.

The prize for winning? A fabulous prize - AND judging next year's competition, of course!

CREATIVITY AHEAD F!rosh proudly parade around their unique creations as they try to impress the judges

ICECREAMCHALLENGE

SF ATRIUM *1.9.2007*

A FROZEN FEAST

From the creators of Baron Von Aaron's Chocolate Challenge and General Jeannot's Gluttony Gauntlet, we give you the InCredible IceCream IngestionChallenge!

Think you LOVE ice cream? Think you can eat 3L of it? - we think not. That's right, we went there - we said it!

Read the stringent rules and sign up to compete in this glorious, taste-a-licious, buy/choose-your-own-ice-cream, winner-take-all competition of strength, wits and determination. And to the winner of the InCredible IceCream IngestionChallenge? Unrivaled bragging rights, a reimbursement for your ice cream, and a magnificent prize!

VILLAGE PUB CRAWL

1.9.2007

HITTING THE HOT SPOTS

With a nod to diversity and to pushing boundaries, Blue & Gold proudly announces the third annual Village Pub Tour! We will proceed, en-masse to the Village and hit up all of the best and most exotic bars! With a pre-planned route and a neon green map hung around your neck, you just can't go wrong.

CHARIOTRACE

FRONT CAMPUS *1.10.2007*

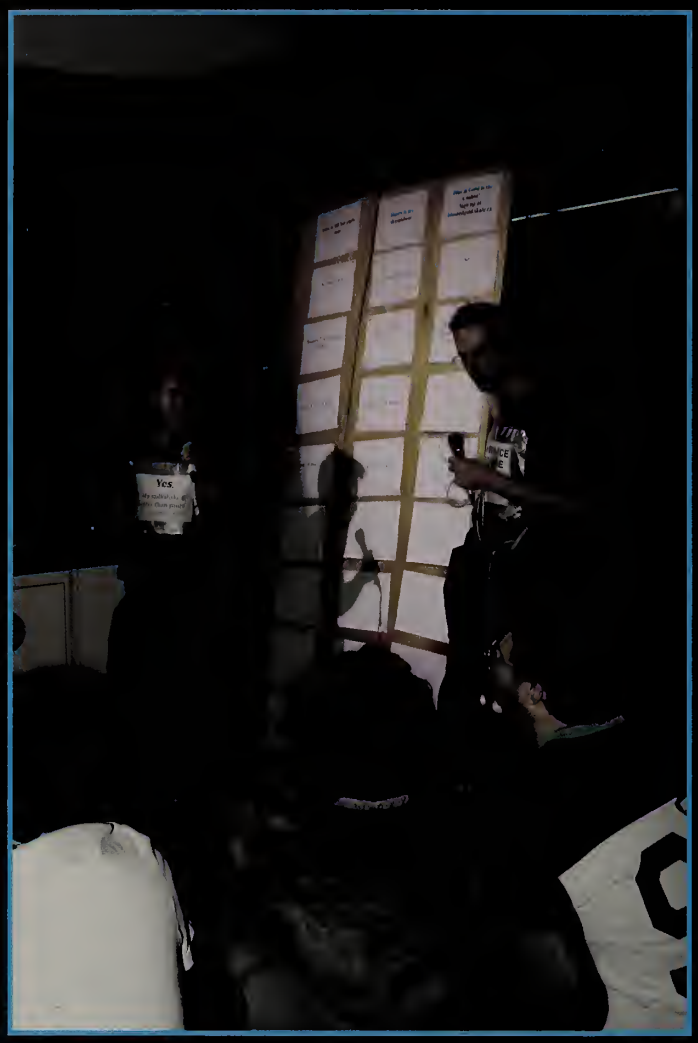
BRUTE FORCE A free-for-all melee as each discipline tries both to push their chariot to victory and to become human roadblocks for others

YE GRANDE OLD CHARIOT RACE
Ye Grande-est and Olde-est tradition of Godiva Week, the illustrious Chariot Race pits every Discipline (and the Frosh) against each other in a full-contact race through the snow (or mud) of Front Campus.

Which Discipline will win? Only the three strictly unbribeable judges - a Blue & Gold Chair, the highest bidder on the second Judge position at Tuesday's Stores Auction, and the champion of Godiva's Quest - can decide.

CALCULOST

SF ATRIUM *1.10.2007*



EULER FOR $200 PLEASE F!rosh scour their brains to try and answer some tough math questions

INTEGRATE THIS
Remember how to integrate by parts? How about delta-epsilon? Or a little bit of inverse trigonometic graphing?

Calculost pits F!rosh against each other in a struggle for mathematical supremacy. Small prizes are award for each correct answer in this Jeopardy-style game.

GODIVA WEEK FLICK Skule™ Engineers take a break and enjoy a movie

MOVIENITE

GODIVA'S WAKE

KINGS COLLEGE ROAD *1.12.2007*

A FIERY SALUTE After a full week of fun, Skule™ Engineers lay the Spirit of Lady Godiva to rest for yet another year. In a final salute to the Lady, we set her coffin ablaze and send her off in flaming glory.

CANNONBALL

ARCADIAN COURT *1.13.2007*

Skule™ Engineers got dressed up in their finest to enjoy Cannonball, the annual Engineering Society dinner formal. Cannonball OT7, organized by Cannonball Chair Ali Istchenko, was held at the prestigious Arcadian Court and brought Godiva Week 2007 to a luxurious and successful close.

CANNONBALL

CANNONBALL

DUTIFULLY CHAINED Four lovely ladies help protect the Mighty Skule™ Cannon during Cannonball

FIRST DANCE Newly crowned Mr. Blue & Gold (Tomas Ronis) and Godiva's Crown (Sheena Weisman) share a dance at Cannonball [*right*]

SWEET MUSIC The Skule™ Stage Band, led by conductor Chris Roscoe, entertains throughout the night [*below*]

Couples hit the dance floor and dance the night away

EAA PRESIDENT QUINN THOMSON

ENGINEERING ATHLETICS ASSOCIATION

PRESIDENT'S MESSAGE

Skule athletes have once again proven that we are the faculty to beat in U of T intramurals. Ranging from the traditional sports of hockey, rugby, soccer and volleyball, to the crazy sports of broomball and innertube waterpolo, engineering has shown their Skule spirit and their implacable dedication in competing, despite hordes of problem sets and midterms. This year has been incredibly fun, with opportunities for all athletes to share a few laughs, improve their abilities and to make quite a few more friends in the process.

To the women of engineering, thank you for playing for many teams simultaneously and for showing up to sports you've never played just so that everyone who wants to play, gets to play.

I'd like to thank my entire council for all their hard work and dedication throughout the year. Brent, I never could have stayed on top of all the legalities and budget crunches without you. Nick, thanks for being EAA's "Sucka" and for making it to meetings. Peter, Katelyn, Steph, and Jeannot, you are the heart of engineering athletics; without you four, there would be no engineering athletic teams. Ian, thanks for making the website easy enough even for me to understand. Lise, S-Dance would be dull without your enthusiasm and attention to detail. Emilie, thanks for taking the time to track down all that we've needed. Mike, I don't think we would've had such a successful year without your help. Thanks to you all for putting up with me for the whole year.

† **SKULE™ ATHLETICS** AS FAMOUS AS SKULE™ ENGINEERS ARE FOR THEIR ACADEMIC PROWESS, THEY ARE EQUALLY KNOWN FOR THEIR ATHLETIC ABILITIES AND UNRIVALLED DETERMINATION. THE FOLLOWING PAGES CAPTURE THE INTENSITY, TALENT AND UNBEATABLE SPIRIT OF SKULE™ ATHLETES:

IRONDRAGONS

ENGINEERING DRAGONBOAT TEAM *Summer 2006*

SURGING AHEAD The Iron Dragons lead the pack at the annual Dragonboat races at Ontario Place

MANAGERS' MESSAGE:
With only seven returning veterans, 2006 was expected to be a "rebuilding" year for the iron d ragons. Our focus was supposed to be basic fitness, technique and setting up for 2007.

So where did these 28 yellow-lifejacket-wearing terminators come from? Who do they think they are, passing crew and university teams one-by-one, or racking up 5 of our 10 all-time fastest races? Why is the captain only in second year? And why are they so flippin' loud?!

Answers might be found in:
• The annual race-in-a-downpour;
• Extra-delicious lake ontario e. Coli during multiple toronto heat waves;
• Barbecues, movie nights, clubbing, pre-race camping and post-practice dinners;
• Innovative forms of torture including pylometrics, the 2000 m row, suicides, pause drills and the beloved burpee;
• The iron dragons' greatest hits album, the amazing disappearing mini-team, S Club 7 cheers and other blockbuster performances.

We were blown out of the water (literally!) By the constant dedication of the paddlers. Every vet and rookie pushed themselves through three tough weekly practices for four months with an indelible grin. We're also lucky to have talented, organized coaches that firmly but fairly demand constant improvement.

Thanks to everyone for reinforcing the iron dragons tradition: fun-loving, hard-working and spirited proof that engineers rule the waves!

Jermaine Poon
Paul Kishimoto

2006 RESULTS:

Pickering Dragon Boat Challenge:
3rd place, University Division Prelim

Toronto International Dragon Boat Race Festival:
4th place, University Cup
30th place overall, 129 teams

Kiwanis Dragon Boat Festival of Waterloo Region:
4th place, College & University Final
LOUDEST TEAM AWARD!

Woodstock Rotary Dragon Boat Festival:
3rd place overall, Platinum Division
2nd place - Open Final

Great White North Dragon Boat Challenge:
1st place, E Division Final
2nd place - Education Cup

Renegade Musical Terrorists, Marching Gregorian Chant Society, and White Noise Brigade!

HEY BNADTASTICALS...

FRUM THE LEEDURS

Weicume to this yeer's skulebook, and an exploshun of froot and flavur! Furstly, thanks to you so much fer comin oot to uhvents and bringhing yore own sound to the bnad's performinces. Tha bnad exshpecially sounded grate for bnad wake-up, wen every jersey and every instrument got lotsa use!! Wen F!rosh actually started coming on bnad events ihn september, we got our reel infusion of bnad powurs, umm.. prowess. Wit onlee one praktise at Hart House Fram the bnad wuz redy to krash AIDS walk and get into the first of meny newspaper articles of da yeer. Then, wishing the stoodent leedurs a wunderful receptshun, we had are first (un)official meeting of the new deen. Bye the end of September the bnad had already atended 14 events, and we onlee got excorted out of wun of dem by the poelice!!

We alsoh got our fix of homecumming goodiness, and by tha end of Octhober, we'd alredy gotten S free t-shirts aht events, an importent mesur of are contribyushun. Plus, we'd got to spend thyme and enrgee suphortin menie chair-iteez including Uniceff, the Children's Wish Foundation, Breast Cancer Foundation and the Toronto AIDS walk! This nhot onlee make us feel useful but alsoe chairitible! Tha bnad alhso suphorted Rueebee in their winning seezon and scored more than tha Varshitty Bluse!!

Whew. Ahfter a nyce long thyme with da bnad for furst semester, what better wae to selebrate than with anuther visit wit tha metroes at the LGMB peraid. They skeduled the Santa Cloz pairaid at the saime time agin! Geeze, when will dey ever leern? Enywey, we rapped up da yeer wid a fun-filed nite at Nathan Fillips Skwere with arr famusly deleshus bnad sk8ting!!1!!!wun!!

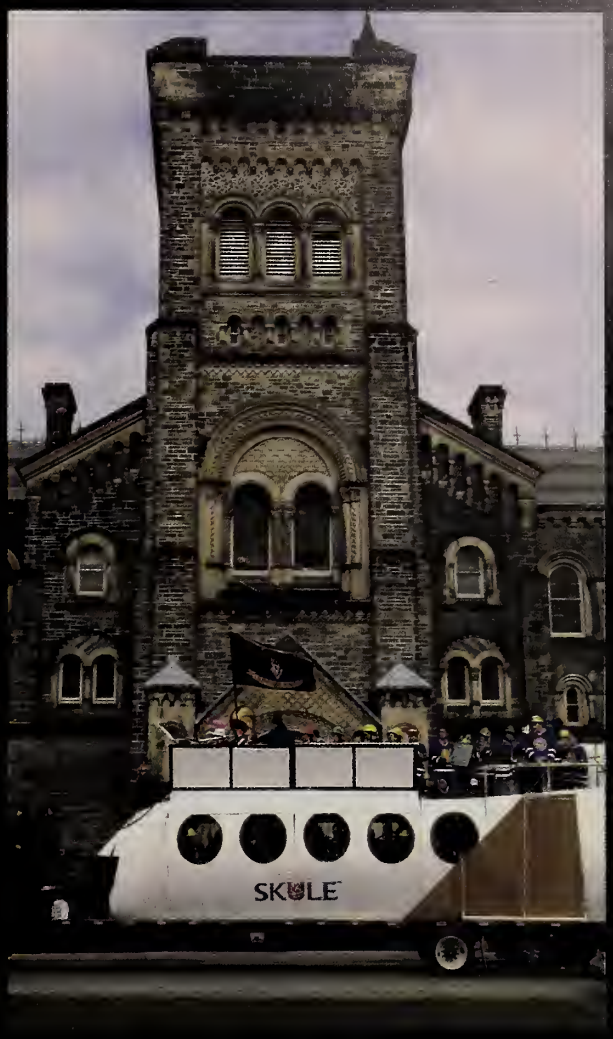
THE LGMB PARADE
The Lady Godiva Memorial Bnad members are pictured on the left on their way to enjoy the annual LGMB parade. This parade conflicted with the City of Toronto's annual Santa Claus Parade in both route and timing. If you ask the bnad, they had theirs first.



THE LADY GODIVA MEMORIAL BNAD

(continyewd frum prevyus payge)
Off corse tha bnad wuz compleatly redy to cum back for tha new yeer in Janyuarie. Wut a wei to kik off tha knew yeir!! The LGMB strarted Godiva Wiik with the Resurectin' of Godiva's Spirit, adn frum then on yew culd see the spearit all around! The chariot race, the evenning acts, and a mistery bnad event full of mystiery!!! Downt ferget Godiva's Waike, ware we got to expend ar teem bey too moar wundrful leedurs. Tha Week wuz so kule we had a Cannonball to end it all uff. Wut a wey to stert a semmestr, yew'd think we wud tayke a brake for studiing but noe! We still went to vawleebrawl, bruum ball, wiminz and menz basketbrawl, hawkee, and to top it off in the charitee side, Ryersen's own car push, EWB dae and UTEK for more free t-shirts!!

Nowe the bnad yeer wuden't be compleat witout a nuther gradball to make everee thing cum full sirkle. Finlandy, we curtainleehoop all d f!rosh reely liked the bnad this yeer and wit awl of U dere, it wuz a gr8 year. Da Bnad's usual anitix of krashing F!rosh Week, sports events, pre-F!rosh events, and drumbing up (get it? chicken wing!) Skule Spirit alwayz and evereewhere did not go unnoticed (no really, ppl noticed). Den at GradBall (sniffle) wee wellcomd Steven Szeto as new & improoved Drumb Majurk and Catie Darlink as Joonyor Bnad Leedeur. Angelo, well, he had to juzt retyre himself. Nick wuz so X-cited, he didn't even notiss he pre-drilled a hole in his hardhat to attach da X to!!! Best Wishez 4 da gnu Bnad leedurs, and all the bnadies to cume. We hope U hav supercalifragilisticexpialidocious Bnad memoriez 2 treasure now & 4-ever.

The legendary story of the Mighty Skule Cannon is one filled with both victories and hardships. Over the years the Cannon Guard has had to deal with many political and social obstacles, even some successful domestic thefts. For over 75 years the engineering student body, alumni, and faculty have stood, unwavering and unyielding, by the Cannon and ensured that our proud tradition survived. The spirit that drives the Cannon is one of determination, wisdom, and responsibility. The determination to never let anything get in your way, the wisdom to accept change, and the responsibility to preserve the traditions we love for future generations. I consider it a great honour to have been able to serve as the Chief Attiliator and continue the traditions of the Cannon over the past year.

This year would not have been possible without the help of those around me. I would like to thank all of my Guards, the leaders of the LGMB, and the officers of the Engineering Society for their unwavering support and dedication to the Cannon. Above all, I want to thank everyone who has perpetuated the spirit of the Cannon. Spreading the glory of Skule is not just about dressing up in black coveralls and standing in formation. It's about showing appreciation and dedication to excellence, refusing to give up when times are tough, and letting NOTHING get in your way. Everyone who has ever attended an engineering event, gone to Suds on a Friday after a long week of class, or even made a conscious effort to maintain strong friendships despite the rigors of an engineering schedule, all of you who have refused to accept defeat and pushed on have perpetuated the spirit of the Cannon.

Every time that the Mighty Skule Cannon roars let the thunder echo in your determination. Be proud to be among the few and the mighty, the wise and the courageous, the products of one of the greatest and most respected engineering programs in the world. I wish all of you the best in everything that you do.

Honour It... Respect It... Protect It... The rest will follow.

Chief Attiliator 2006 - 2007

VALEDICTORIAN'S

JORDAN SILVERMAN *MECH 1TO*

Good evening, distinguished professors, faculty, guests and fellow classmates of OT7 (and OT6+PEY). We're gathered here tonight to celebrate the last 4 years of our lives. +PEY. +x, where x is that year you had to repeat when you switched out of eng sci, or whatever else it was you had to do to get here tonight. I am extremely honoured to be standing before you this evening as your valedictorian speaking on behalf of the most talented, intelligent, creative and energetic group of people I have ever encountered.

The Engineering class of OT7 (and OT6+PEY), like any community, is merely a collection of the individuals that comprise it, each contributing his or her own unique talents and abilities to the community as a whole. Every one of us has endured the high times and hard times of U of T Engineering life, failing our share of midterms, praying for that infamous bell curve, and then loathing that dude in the front of the class who messes up the infamous bell curve. More importantly, Skule™ and the engineering society have offered us various opportunities to express ourselves through intramurals, student government, clubs and other groups. It is the communal experience in both the academic and extra-curricular realms of our journey from Frosh Week to Iron Ring that has made it truly unforgettable.

I remember in stats class back in 2nd year a student said to the professor: "Sir, sir, can you please slow down a little. You're rushing." He responded: "Rushing? Rushing? Of course I'm rushing. You guys have to get married, graduate, and get the hell out of here!" And now here we are. Not getting married, at least not most of us, but graduating, and on the threshold of a new chapter in our lives. The rings we just received this week not only acknowledge the achievement of completing this demanding and rewarding degree, the value of which should certainly not be underestimated. The rings also represent our responsibility as educated and valued members of society. The question is not whether we will impact the world, but how. Trudeau said: "The new frontier lies not beyond the planets, but within each one of us." Seize the day and make your lives extraordinary. This engineering class is filled with individuals with so much talent, unbelievable capabilities and incredible potential for leadership. OT7 (and OT6+PEY), believe in your dreams and have the courage to pursue them.

On a more personal note, I feel so fortunate to have participated in the academic and extra-curricular elements of Skule™ and I attribute this mainly to the remarkable people with whom I shared the experience. We've all been in this together, through the highs and the lows. The friendships we have formed are unforgettable and many will be everlasting. I take great pride as a leader in the OT7 (and OT6+PEY) class and I would like to thank you again for opportunity and privilege to speak tonight. The next part of my speech may not be typical of your conventional valedictorian speech, but I guess I'm not your conventional valedictorian. Please welcome once again, the Skule™ Jazz Combo.

As they set up, I'd like to make one final toast:

To our journey of yesterday, our celebration today, and the impact we will have tomorrow.

SKULE™ VALEDICTORIAN Jordan Silverman addresses the graduating class of OT7 (and OT6+PEY) at the opening of Gradball

Start spreading the news
We're finished in May
It's great to be a part of it
OT7 (and OT6+PEY)

Those midterm blues
Don't matter a thing
Even if we fail them all
Already got our Ring

Engineering's a program that replaces time and sleep
Got 60 hours of class, workload's too steep

The atrium's the place
We waste time away
Procrastinate our studying
till it's too late

Must print the slides and cram
But there's a paper jam
I'm gonna miss OT7 (and OT6+PEY)

OT7 (and OT6+PEY)

Now we must part and we must go our separate ways
Whether it's getting a job
Graduate school
Another degree
Which is more than likely

Now that we graduate
Maybe we'll get a date
But there's just one more thing to do
Before we go....

Can someone do my thesis
Please help me out sweet..... , ...David Lee
I'm gonna miss OT7 (and OT6+PEY)

Musically inclined Engineers provide the perfect Gradball entertainment

UNIMIN

JOIN OUR WINNING TEAM...

Founded in 1970, Unimin Corporation has grown from a small silica mining company to become one of the world's leading industrial mineral producers. Unimin's quarry and processing plant's make it one of the world's largest producers of nepheline syenite. We are also a major producer of silica, feldspar, kaolin, dolomite, olivine and bentonite clay. As a worldwide supplier to the glass, fibreglass, ceramic, semiconductor, quartz lighting, paint and coatings, fiberoptics, foundry, and oil and gas service industries UNIMIN enjoys a financial stability that comes from being suppliers to our customer base. Furthermore, we play a major role in the plastics, rubber, refractory, metallurgical and construction related industries.

Moreover, UNIMIN is no longer simply a mining company. We are global transportation specialists, applications engineers and technical advisors, research and development experts and international marketers drawing from a synergistic product portfolio and global production capability. Our objective is to meet and exceed our customers' expectations, and to ensure that we remain responsive to a constantly changing world of industrial mineral requirements.

Our business model is a simple one: build an integrated system of superior mineral deposits, innovative production technologies and experienced professional managers, and empower our workforce in the continuous pursuit of quality improvement and customer satisfaction. With UNIMIN's financial strength to grow and expand, and a long-range strategic focus, our priority is to reinvest in our mineral reserves, production facilities and health and safety programs. For our customers, this long-term perspective translates into a proven and reliable source for their immediate needs, and a trustworthy partner for their future requirements.

If you seek a strong and growing company, which offers opportunities for advancement, in which to develop your career forward your resume/contact information to:

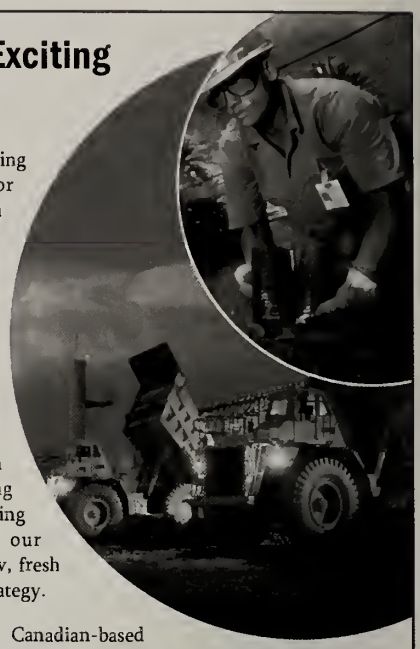
Looking for an Exciting Career In Mining?



The mining industry offers exciting challenges and opportunities for individuals looking to build a career in the industry. Kinross is no exception, as we strive for employee satisfaction. With attractive compensation plans and an achievement-based rewards system, Kinross is an employer of excellence. Kinross encourages employee advancement and skill building through continuous education and cross-functional mentoring programs. Kinross is facing exciting times and we encourage our employees to bring forward new, fresh ideas that could enhance our strategy.

Kinross Gold Corporation is a Canadian-based senior gold mining company with annualized gold equivalent production of approximately 1.6 million ounces. Kinross has interests in 10 operating mines in Brazil, Chile, Canada, United States and Russia. This global portfolio is complimented by a robust pipeline of exploration and development properties worldwide. Kinross is committed to sustainable development and environmental excellence in all of the areas and communities in which we operate.

For further information on employment opportunities, please refer to our website at **www.kinross.com**

KINROSS

At NOVA Chemicals you can expect a stimulating work environment along with opportunities to learn. By joining our team of high performing professionals you will receive our total compensation package that includes flexible benefits, competitive salaries, training & development and work/life balance opportunities.

We are large where we choose to compete, and we are growing rapidly. NOVA Chemicals' styrenics production is ranked #1 in North America, 3rd largest in the world and we are the 2nd largest producer in Europe. We have the largest single ethylene cracker in the world for ethylene and polyethylene capacity.

Each year we hire coop/internship students and new graduates in disciplines such as engineering, business, information technology, chemical technology, and plastics technology. We focus on mentoring students to ensure continuous development and a rewarding experience. We regularly post openings at campus career/ coop offices across Canada. Watch for us at your school!

"Our strong employee team environment encourages innovative thinking, creativity and self development."

Where our catalyst for change is... YOU!

The Sernas Group Inc. is an employee-owned multi-disciplinary consulting firm, originally established forty-five years ago. Our 160 professional and technical staff are committed to providing high quality client-oriented service to both public and private sector clients from four offices in the Greater Toronto Area.

Graduate engineers are placed on personally tailored development programs to expose them to all aspects of the company's consulting work within their field of specialization. Depending on an individual's capabilities and interest, careers may lead to specialized technical work, supervisory responsibilities, or project management. Working with multiple projects and demanding deadlines provides both the challenge and satisfaction in consulting work.

We also hire engineering students for summer employment.
